

The Cloud Talent Transformation Company

Cloud Institute is the premier cloud talent transformation company, helping businesses build and maximize the potential of their cloud workforce through customized learning experiences.

Cloud Talent Recruit, Train, Deploy

“More than 90% of IT leaders plan to expand their modern software engineering and cloud environments, yet 80% say inadequate employee skills are holding them back.”

- Deloitte

The Cloud Institute Solution

Our unique approach to assessing talent, developing customized learning paths, providing hands-on opportunities, and coaching will prepare your recruits and staff to tackle even the toughest cloud computing challenges.

The Cloud Institute Difference

At Cloud Institute, we believe every project is different. That's why we create custom recruit, train, and deploy solutions focused on validating your recruits' skills, identifying any gaps, and building learning paths to specifically develop those needed skills.

The recommended **Recruit, Train, Deploy** solution package includes:

- ✔ **Skills Assessment:**
Assess the skills of new hires or newly sourced talent to determine their suitability as potential hires or to establish a baseline for appropriate candidates. Leverage standard technology-based skills assessments or create customized assessments aligned with an organization's specific staffing needs.
- ✔ **Learning Path Advisory Session:**
A Cloud Institute advisor will analyze assessment results, identify potential skills gaps, and recommend a personalized learning path during this 30-minute consultative discussion.
- ✔ **Self-Paced learning subscription:**
6-months access to a 5000+ hours library of self-paced content, including the specific courses highlighted in the personalized learning path.
- ✔ **Labs package:**
6-months access to a technology-specific labs package that enhances the self-paced learning experience.

Technical coaching sessions are available in **1-hour increments** to support each individual's progress through their learning journey.

Overcome Project Delays, Maximize ROI

The Cloud Talent Transformation Company

Cloud Institute is the premier cloud talent transformation company, helping businesses build and maximize the potential of their cloud workforce through customized learning experiences.

Reskill & Redeploy

“74% of workers are willing to learn new skills or re-train in order to remain employable.”

- Lorman

The Cloud Institute Solution

To thrive amid business transformation, companies must continuously evolve their workforce's capabilities. As technology automates tasks, employees need to be upskilled or shifted to new roles that align with their strengths and the company's evolving needs.

The Cloud Institute Difference

We help enterprises overcome headcount and human capital limitations by creating custom plans to reskill their staff. This enables redeployment to innovative new projects, implementation of cost-efficient cloud services, and the creation of greater value.

The recommended **Reskill and Redeploy** solution package includes:

- ✔ **Skills Assessment:**
Start with a skills assessment to assess the skills of the employee. We can leverage standard technology-based skills assessments or create customized assessments that align with an organization's specific redeployment needs.
- ✔ **Learning Path Advisory Session:**
A Cloud Institute advisor will analyze the assessment results, determine potential skills gaps, and recommend a personalized learning path during this 30-minute consultative discussion.
- ✔ **Coaching Sessions:**
30-minute technical coaching sessions were held monthly over the course of 6-months as a vehicle to keep learners on track and on pace. These coaching sessions also provide learners with the opportunity to ask questions and work through complex scenarios with subject matter experts.
- ✔ **Self-Paced learning subscription:**
6-months of access to a library of self-paced content, including the specific courses highlighted as part of the personalized learning path.
- ✔ **Labs package:**
Access to a technology-specific lab package for 6-months that augments the self-paced learning experience.
- ✔ **Final skills Assessment:**
End the 6-months learning journey with a second skills assessment to document competency increases and showcase readiness for the new role.

Additional technical coaching sessions are available in **1-hour increments** to support each individual progress through their learning journey.

Bridge the Skills Gap, Unlock New Possibilities.

The Cloud Talent Transformation Company

Cloud Institute is the premier cloud talent transformation company, helping businesses build and maximize the potential of their cloud workforce through customized learning experiences.

Upskill your workforce

“Upskilling existing employees could save businesses up to \$45,000 per employee when compared to replacing them with new hires.”

- ILX Group

The Cloud Institute Solution

We'll help your organization stay ahead of the competition by reducing attrition costs and seamlessly aligning existing talent with new opportunities.

The Cloud Institute Difference

At Cloud Institute, we believe every project is different. That's why we will create a custom learning path for your existing IT team. Based on your project applications, we will assess the baseline of current proficiency, design a learning curriculum plan, offer mentoring services with an industry practitioner who is a subject matter expert, provide labs for hands-on practice, and validate skills.

Project Readiness

“76% of employees believe their companies should provide more digital skills training; only 44% said their employers currently do so.”

- Lorman

The Cloud Institute Solution

We're ready to help your enterprises and technical teams build the skills needed as they work through new implementation projects, enable new services, or migrate their on-prem infrastructure to the cloud.

The Cloud Institute Difference

Keep your talent pool skills certified on the latest cloud technologies and platforms with personalized coaching and live projects training. At Cloud Institute, we believe every project is different. Tell us the business outcomes you need to achieve, and a coach will assess your current staff and create a personalized learning path, so your team has the skills to meet goals.
